Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3751

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

2. Claims 1-6, 9, 11 and 12 are rejected under 35 U.S.C. 102(b) as being anticipated by Reinert.

Re claim 1, the Reinert reference discloses a structure comprising: a first region 16,17; and a second region 14, as claimed. Claim 11 is redundant to claim 1 insofar as the same product is set forth.

Applicant argues at page 5 of the response filed March 19, 2007 (resubmitted April 17, 2007 and May 01, 2007) the shape structure disclosed by Reinert is not intended to be used with a preliminary wall (e.g. drywall). The examiner can not agree as Fig. 1 in Reinert clearly discloses a preliminary wall 12. In

any event, the claim limitation which applicant relies upon in this regard is a functional one. "It is well settled that patentability of apparatus claims must depend upon structural limitations and not upon statements of function". See 118 USPQ 353, for example.

3. Claims 10 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Reinert and Webster.

Although the structure of the Reinert wall fixture does not include a third region, as claimed, attention is directed to the Webster reference which discloses an analogous wall fixture which further includes a structure 10 having a third region (receiving 13,14). Therefore, in consideration of Webster, it would have been obvious to one of ordinary skill in the wall fixture art to associate a third region with the Reinert structure in order to enable screw attachment.

Applicant has not substantively argued this ground of rejection separately from that addressed supra.

4. Applicant is referred to MPEP 714.02 and 608.01(o) in responding to this Office action.

5. The grounds of rejection have been reconsidered in light of applicant's arguments, but are still deemed to be proper.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3751

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

6. Any inquiry concerning this communication should be directed to Robert M. Fetsuga at telephone number 571/272-4886 who can be most easily reached Monday through Thursday. The Office central fax number is 571/273-8300.
